

Mobility Information Sheet 7.

Adaptation Firms in Ireland

There are several firms in Ireland that manufacture and install adaptations in vehicles for people with disabilities. These can be simple steering attachments or hand controls for accelerating and braking for disabled drivers, to lower floored vehicles and converted wheelchair passenger vehicles for people who wish to travel in their wheelchair.

TMC-I neither endorses nor recommends one company over another, but we recommend you 'shop around' for the best deal for yourself. The cheapest conversion may not, necessarily, be the best solution for you. We recommend you work with the adaptation firms listed to ensure a satisfactory outcome, and 'best solution' to suit your needs.

We have listed below the major company's, **alphabetically by County**, that convert vehicles for people with disabilities, and given some detail of the type of conversions they carry out.

Inclusion in this list does not imply endorsement or recommendation by TMC-I.

Armagh:

**McElmeels Garage Limited, Ballyscadan Road, Armagh,
Co. Armagh. Tel: 048-375-25333. (Malachy McElmeel)**
